

BIG BAN THEORY

Our whole _____ was in a hot dense state,
Then nearly fourteen _____ years ago expansion started. Wait...
The Earth began to cool,
The autotrophs began to drool,
Neanderthals developed _____,
We built a wall (we built the pyramids),
Math, science, history, unraveling the _____,
That all started with the big bang (Bang)!

"Since the dawn of man" is really not that long,
As every _____ was formed in less time than it takes to sing this song.
A fraction of a second and the elements were made.
The bipeds stood up straight,
The _____ all met their fate,
They tried to leap but they were late
And they all died (*they froze their asses off*)
The oceans and Pangaea
See ya wouldn't wanna be ya
Set in motion by the same big bang!

It all started with the big BANG!

It's expanding ever outward but one _____
It will pause and start to go the other way.
Collapsing ever inward, we won't be here, it won't be heard
Our _____ and brightest figure that it'll make an even bigger bang!

Australopithecus would really have been sick of us
Debating how we're here, they're catching deer (*we're catching viruses*)
Religion or _____ (*Encarta Deuteronomy*)
It all started with the big bang!

_____ and mythology, Einstein and astrology
It all started with the big bang!
It all started with the big... BANG!
